HOTELS & RESORTS

Top GLAMPING

Top EXCLUSIVE QUALITY

Top SUPERIOR QUALITY

Tested Quality

The level of the offer is evaluated with 5 elements: SANITARY FACILITIES, PLOTS, SUPPLY-SERVICE, LEISURE AND BEACHES. Each element is scored from 1 to 5 points. Each element does not have the same weight when scoring, so for example toilets and plots make up 60 percent of the total score. The final grade is descriptive and has a predicate for the best quality GLAMPING, then EXCLUSIVE, SUPERIOR and COMFORT. As a rule, all start with 4 stars of the national camping classification, and it is possible that the lack of one star will be covered by international quality awards such as the ADAC Superplatz or Leading Campings lable.

Classification

Top COMFORT QUALITY

Comfort is a basic level of TOP camping quality and meets the criteria of the national classification for 4 stars, which means especially good sanitation and accommodation. Top COMFORT is a practical campsite, especially for nature lovers and has elements of satisfactory quality in all elements that are evaluated where toilets and pitches are always around 4 points. It is not glamorous, but is a candidate for a higher category according to his services. Swimming opportunities can be outside the camp, but it is desirable to have a pool in the camp. It has all services for sports and leisure. The access roads are illuminated. Waste containers are sorted by type of waste and in special protected areas. For this as well as for all other categories, TOP cleanliness is the first condition. Entrance to the campsite is not possible from 23:00 to 07:00 in the morning, and the reception is open 24 hours.

Top SUPERIOR QUALITY

Superior is a medium level of quality that has all the services offered by COMFORT but additionally with a slightly higher level of equipment, labeling and quality. Also, there is a higher offer and level of entertainment and events with weekly programs. Shops and leisure services are in the immediate vicinity of the campers accommodation. The plots are mostly fenced with green natural hedges and clearly marked with prescribed vestibules.

Top EXCLUSIVE QUALITY

Exclusive is a higher level of quality that offers the same as SUPERIOR but with additional exclusive offers that are more generous than the previous two quality categories, whether it is a location that is unique in its panoramic and landscape form or offers that others do not have such as golf courses, special mini villages for children, richer pool offers, wine shops, themed shopping and a renowned gastronomic offer with an exclusive selection of traditional local dishes as well as eco products. The exclusive offer often has certain services that others do not have, such as a beauty center, massage rooms with aromatherapy, etc.

Top GLAMPING

Glamping is a quality that meets all the criteria as well as the EXCLUSIVE level, but in addition it has a predicate of luxury facilities that are glamorous and unique in their appearance and equipment. Services in toilets, accommodation facilities, reception of guests, restaurant, beach facilities, assortment in shops and leisure programs, as a rule, exceed the quality of the most luxurious 5-star hotels. Given the high quality and promises that this level of brand gives, the quality of service from the qualification of camping staff to the range is unquestionable and guaranteed, and by their service character they give total quality with zero error tolerance. GLAMPING is the highest rating and speaks of the glamorous furnishing of the campsite in all its elements including location, natural beach of the building, luxurious and functional toilets, logical layout of all types of accommodation tastefully furnished and in traditional architectural style, leisure facilities, service and leisure with with an emphasis on eco management, nature protection and sustainable tourism. According to the evaluation criteria, it meets the criteria of the national classification for 5 stars, although this is not a condition.

Welcome to Umag Riviera

Umag and its Riviera have approximately 13 000 inhabitants. Umag is classified as one of the oldest urban settlements in Istria. It is the closest Croatian town to main European traffic routs, "the tourist gate to the Croatian Adriatic Coast and Istria". The heradic symbol of Umag is a lion (the town was ruled by Venetian Republic for centuries), while in the tourist sense it is certainly the tennis racket thanks to its world famous ATP Tournament. The tourist facilities of Umag provide more than anywhere else in Croatia possibilities for a year round operation. Two well known hotel companies are located in it: Plava laguna and Kempinski!

Today, Tar and Vabriga expanding one towards the other have become one, divided just by the Pula-Trieste road. The ancestors of the Tar and Vabriga have chosen the place for their settlement with great success.

It is a fertile plateau (112 m above sea level), gently sloping towards the sun and sea in the South-West, whilst it abruptly arises towards the Mirna estuary in the North. The inhabitants of Tar and Vabriga may often be seen either driving tractors or sailing boats as two are their ploughfields – land and sea. Today they are also engaged in catering and tourism facilities.

The particular way of fishing that takes place in the Tar valley has been going on in this way for a thousand years. The second fishermen bay is Santa Marina, the property of Vabriga inhabitants. When the fishing season is over, the fishermen return with great dedication to cultivating their olive groves and vineyards.

Oggi, Torre ed Abrega si espandono una verso l'altra, tanto da diventare un unico centro abitato, diviso appena dalla strada Pola - Trieste. I primi abitanti di Torre e di Abrega vi hanno scelto questi come luoghi per potersi stabilire con gran successo. Si tratta di una zona fertile a 112 msopra il livello del mare, con una leggera pendenza verso la parte soleggiata ed il mare a sud-ovest. A nord si vede la foce del fiume Quieto. Gli abitanti di Torre e di Abrega possono essere visti sia alla guida di trattori che in barca, perché questi ambienti, la terra ed il mare, sono loro congeniali. Oggi, parecchi vi trovano impiego nell'ambitoturistico. Il modo particolare di pescare caratteristico per la Valle di Torre, conosciuto da tantissimi anni.

La seconda importante zona di pesca quella di Santa Marina, proprietà degli abitanti di Abrega. In questa baia si coltivano i mitili e vi si possono fare delle escursioni in barca per poi fermarsi nel ristorante qui situato. Al termine della stagione di pesca, i pescatori tornano con grande dedizione all'coltivazione degli ulivi e della vite.

TAR — VABRIGA TORRE — ABREGA

ISTRIA — HRVATSKA
ISTRIA — CROAZIA

Heutzutage sind Tar und Vabriga, indem sie sich in Richtung zueinander dehnten, eine Siedlung die nur von der Verkehrsstraße Pula-Trieste getrennt wird. Die Vorfahren der Einwohner von Tar und Vabriga haben sich ihnen Wohnort klug ausgesucht. Dies ist eine fruchtbare Hochebene (112 m über dem Meeres-Spiegel), die sich vom Südwesten leicht zur Sonne und Meer neigt und auf der nördlichen Seite steil zur Mündung des Flusses Mirna hinabfällt. Sofern nicht auf dem Traktor, dann findet man die Bewohner von Tar und Vabriga auf ihren Booten - Sie haben zwei Arten von Acker - an Land und auf dem Meer. Aber heutzutage sind alle, wenigstens ein bisschen, in der Gastwirtschaft und im Tourismus beteiligt.

Der spezifische Fischfang in der Tarska Vala hat sich seit einem Jahrtausend nicht geändert. Die zweite Fischerbucht ist Santa Marina, diese gehört den Einwohnern von Vabriga. In dieser Bucht gibt es auch eine Muschelzucht sowie einen Ausflugsort mit Restaurant. Wenn sie nicht beim Fischfang sind, bearbeiten die Fischer mit großer Hingabe ihre Wein- und Olivengärten.

Located on the western coast of Istria, Vrsar offers magical sea views, vivid colours and tourist facilities. This abundant source of untouched Adriatic beauty and historical heritage has for decades tempted travellers and artists, while amenities, such as a marina and sports airport, have attracted adventurers and adrenalin seekers.

A safe haven for fishermen and seafarers, Vrsar was, on two occasions in the 18th century, home to the notorious Venetian lover Giacomo Casanova.

Vrsar's medieval town centre is situated at 54 metres above sea level, on a hill next to the sea, with numerous viewpoints boasting unforgettable views of the open sea and the archipelago of 18 islands.

Funtana

Welcome to the picturesque fishermen's town that breathes a special charm and the beauty of life at every step. Tempting natural atmosphere, well-indented coastline with beautiful beaches, unique campsites on attractive locations, great gastronomy, a nautical marina, special kindness of the hosts and long-established tourist tradition, have turned the little village of Funtana into a large and quite desired seaside resort on the Adriatic.
